

Turning ideas into innovation.

Your challenge at ZEISS

// INNOVATION
MADE BY ZEISS

To strengthen our Team in the Corporate Research and Technology area in Berlin (Germany), starting in March 2018, we are offering an

Internship in New Venture, Duration: 2 - 6 months

Your job

- support New Venture activities on all fronts for ZEISS
- help identify and evaluate selected start-ups relevant for ZEISS
- prepare and participate in discussions with internal and external partners on venture activities
- perform market research on start-ups and new technologies
- acquire a good overview of the ZEISS business and technology development activities
- contribute out-of-the-box ideas and critically discuss opportunities
- build qualitative and quantitative models for partnerships with external innovation partners at all levels

Our requirements

- you already finished your Bachelor degree at a university
- passion for innovation, new ideas and technologies
- a pragmatic, practical approach to problem-solving
- an open-minded, self-employed attitude
- a good sense of urgency and attention to detail when solving problems
- the ability to deal with a dynamic environment and/or changing priorities
- previous experience (e.g.: studies, start-ups, hobbies) of interest for the interface of new ventures and a high-tech company such as ZEISS
- basic knowledge and interest of investment, management topics and economics
- solid knowledge of basic mathematics
- an enjoyment to grow and enhance your knowledge and skills in areas, where you are unacquainted
- an academic performance in the top 30% of your class

With more than 25,000 employees, ZEISS is one of the global leaders in the optical and optoelectronic industries and has been contributing to technological progress for 170 years. ZEISS develops and distributes lithography optics, measuring technology, microscopes, medical technology, eyeglass lenses, camera and cine lenses, binoculars and planetarium technology.

As an intern, you will work with your colleagues as an equal. You will receive detailed insights into a company that creates products for tomorrow's world and lay the optimal foundation for your future career.
